BRIEF ABSTRACT OF LETTER

NOTES AND ORDERS

7a

No D 379 Dated 20 July 1917

GPB—1 000—21 12 14

MYSORE P. W. DEPARTMENT.

TO THE DEWAN OF MYSORE

FOR ORDERS

—o—

Subject:- Detailed surveys of towns in the Kadur District

The Deputy Commissioner, Kadur District, having expressed the desirability of deputing a competent Engineering staff for surveying the 7 municipal towns noted in the margin, in view to preparing comprehensive schemes for town improvement, drainage and water supply for each town, particulars were obtained from that officer as to the lines on which he wishes the work done.

1. Chickmagalur
2. Tarikere
3. Kadur
4. Birur
5. Mudigere
6. Koppa
7. Narasimharajapura

2. It is stated that a plan of each of the 7 towns in the District should be prepared with details as follow -

(a) Drainage line with detailed separate sheets to show the line

(b)

To the Revenue Secretary
for favour of submitting a
e through the Second Member
uncil

Secretary to Govt
Revenue Dept

(b) Water supply system with lines indicating main and branch pipes and plans of stand pipes and - - fountains, to be shown in sections separately.

(c) Plans of town extensions with details as to streets, conservancy lanes and drains.

(d) Plans of insanitary and congested areas to be improved or opened out with statements of houses and sites required to be acquired.

(e) Designs of public buildings and markets for each town.

3. The work accomplished so far by the Sanitary Division along these lines is not much, as only the following schemes have been completed till now -

Drainage and water supply schemes for Chickmagalur,

Water supply projects for Honna and Kudur and mere survey of the Narikere town

4. Details of the nature of work required to be carried out are given by the Deputy Commissioner in Statement (marked Slip T) and the Executive Engineer Sanitary

3

Sanitary Division, reports that for preparing complete projects, as desired, for all the seven towns enumerated in the list, an adequate establishment, as shown below, should be employed for at least 15 months -

	Pay.	Travelling allowance	Total
	Rs	Rs	Rs.
1 Assistant Engineer	250	100	350
9 Suboverseers	35	20 each	495
1 Draftsman	50		50
2 Tracers	25 each		50
1 Clerk	30		30
2 Peons	7 each		14
3 Lascars	8 each		24
			1,013 per month
	For 15 months		15,195
	Contingencies	...	305
		Total	15,500

Roughly, each Municipality will have to bear Rs 2,200 for the schemes it may want prepared and the amount may be

provided

provided in two successive years, viz., Rs 1,760 in the first year and the balance of Rs 440 in the second year, which will not be much. The Deputy Commissioner has agreed to distribute proportionately the cost to the several Municipalities concerned and place the requisite funds for working out the schemes.

5. If the proposal meets with your approval, the special establishment will be entertained and work started early.

Joint Secretary to Government,
Public Works Department.

Bangalore,
20th July 1917.

General and Revenue Secretariat | Rel File No 209 of 1917

Serial No	
	Note
	1. In connection with the Water-Supply Scheme to Kadur Town, the Deputy Commissioner, Kadur District, suggested, in his letter dated 29/30th March 1917, an elaborate proposal for a complete survey of each municipal town in the District with reference to its needs in respect of water-supply, drainage, extensio and other improvements.
	2 On this, the Second Member observed that no general orders could be issued to draw up several schemes together, and that each scheme should be considered in the order of urgency and feasibility, and investigated in due course with the sanction of Govt, as otherwise, much unnecessary labour and energy may be spent (Vide paras 12 and 13 of Ml File 206-15) A reply was accordingly sent to the Dy. Comr
	3 The reference of the Dy. Comr now being dealt with in the P.W.D., is only an amplification of the reference previously received, with the details necessary for the several municipal towns in the district.
	4 The entire cost of the schemes for all the towns in the District is estimated at Rs 14 lacs and the nature of the plan to be drawn up is detailed in para 1 of the Dy. Comr 's letter dated 13th May 1917 to the Chief Engineer.
	5 The total cost of the survey will be about Rs.16,000/- for all the towns in the district, and

Note—Contn. sheet

P-1233—GPB—60 000—1 12-46—S.

Serial No

the cost to be contributed by each Municipality is put down at about Rs.2200 But the utility of a survey of the kind now proposed is not apparent unless there is a reasonable prospect of the schemes being worked out soon, or in the near future. Otherwise, it would be best to take up the surveys, etc , when the works are also likely to be carried out. It may be mentioned that drainage and water supply schemes for Chickmagalur, and water supply schemes for Kadur and Koppa are now being actively pursued separately.

Sent to Tumkur, Pl No. 1091-15 Ml 40-16-34 17-7-18 Pl 12/9/18

6 Taking into consideration, the total estimates for all the schemes it is more than doubtful if the necessary funds can be made available by the Municipalities concerned in the near future.

7 The financial condition of many, if not of all the Municipalities, is not very prosperous. The raising of a loan for carrying out the improvements, demands immediate consideration of the repayment of it. But it is seen that the finances of these bodies are unable to ~~cope with the~~ meet even the immediate requirements (e.g.) water supply of Kadur and Tarikere and also of Chickmagalur,) and increase of taxation by at least 50 per cent would be necessary for defraying the maintenance charges of water supply schemes and or contemplation with regard to some of them.

8 There is besides the Kadur-Chickmagalur Rail

General and Revenue Secretariat | mk File No 209 of 1917

Serial No

question still under consideration, and a loan will have to be raised by the District Board for meeting a moiety of the cost. The floating of other large loans could not be expected to be met with any degree of success.

2 It is therefore a matter for orders whether the proposed general survey of all Municipal towns is urgently called for.

Dated - Chikmagalur, the 13th May 1917.

From

L. Krishna Rao, Esquire,

Offg Deputy Commissioner,

Kadur District.

To,

Rajasabhabhushana

Karpur Shrinivasa Rao, Esquire B.Sc., M.R.A.S.,

Chief Engineer of Mysore,

B A N G A L O R E

Sir

Adverting to your letter No.4715 dated 5th May 1917 regarding the desirability of undertaking detailed surveys of Towns in this District with a view to prepare comprehensive schemes for town improvement, Drainage, water-supply etc , for each town and suggesting the employment of an adequate establishment to get the preliminary schemes ready in a year, I have the honour to state that a plan of each Town in this District with details as regards each item of improvement as shewn under is required -

(a) Drainage line(with detailed sheets separately)

(b) Water-supply system with lines indicating main and branch

branch pipes and plans for stand pipes etc(details to be shown in sections in separate sheets)

(c) Extension Plans with details as regards streets, conservancy lanes and drains.

(d) Plans of insanitary and congested areas in which acquisition of houses and sites are proposed

(e) Location and designs of markets and other public buildings.

2. No plans are available for any of the towns in this District for reference. If the staff proposed to be employed by you will do all the work outlined above, I shall equitably distribute the cost among the several Municipalities in the District and make the funds available for undertaking the survey and planning work The favour of an early reply is requested. A statement shewing the requirements of each Town with rough estimates is enclosed for information
A note on the several items for each municipality is also appended

I have the honour to be,

Sir,

Your most obedient servant,

L Krishna Rao

Offg Deputy Commissioner,

Kadur District

CHIKMAGALUR MUNICIPALITY

Water supply: Estimates and plans for Rs.Rs.1,20,000/- for improving the present unsatisfactory water supply to Chikmagalur have been prepared and they are pending with the Chief Engineer. This provides for a supplemental storage Reservoir Service cisterns and the realignment of pipes.

Drainage Scheme:- The whole project is estimated to cost Rs. 82,500/- of which Rs.32,500/- is provided to open out the three congested parts of the town (Petta) by acquiring all the insanitary houses there, which cost Rs.15,000/-. The cost of laying out new roads improving the old ones constructing tunnels and flood water drains in the above localities amounts to Rs. 17,000/- After this is completed a Sewage Scheme at a cost of Rs.50,000/- has to be taken up as per report drawn up by the Sanitary Engineer.

Town Extension.- As the new Taluk Cutchery is now constructed at Basavanahally there is every probability of sites being taken up in the open ground near it which will accommodate about 300 houses. The cost of reforming this with roads and water tight drains will be Rs.6,000/- .

House building Advances:- Loans at the rate of Rs.500 per house is provided which comes to Rs 1,50,000 for 300 houses to be built by indigent persons of whom there are many

Other Improvements.- 10,000 Rs is provided for building a Market as per modern design and other necessary improvements required for the Town

Acquisition of Insanitary Houses - A provision of Rs 20,000/- is made for the acquisition of Insanitary Houses in congested areas.

[illegible]

Water supply:- The [illegible] is estimated at about Rs. 75,000/-. It is proposed to [illegible] and thence supply water to the Town by means of pipes. The maintenance charged is estimated at Rs.4,000/- per year. The Government have directed that the Sanitary Engineer be instructed to submit a rough project for this work (G.O.No.5950-2 Mi 281-11-10 dated 24-8-1917)

Drainage Scheme:- The [illegible] area is 8.91 sq. miles leaving half of this area for vacant land etc. around the Town. the built up area will be [illegible] miles or 288 acres. As per instructions of the Sanitary Engineer the project costs about Rs.--- 2,00,000/- . This is due to the irregular condition of the streets in this town and the necessity to have outfalls in -- different directions.

[illegible]:- In this Town about 100 new houses may emerge up by an extension on the [illegible] on the Kirup Road is reserved for this purpose [illegible] of 10 acres as required as per area furnished by the Cemetery Committee. Estimate for forming this extension of 10 acres at Rs.500/- per acre excluding compensation is Rs.5,000/-. Compensation of 10 acres at 100 rupees per acre Rs. 1000. Total is Rs.6,000/-.

House building advances:- Rs.50,000/- for 100 houses at Rs500 each to be given only to poor people and made repayable in 10 annual instalments.

Other improvements:- For improving the market stall and opening of [illegible] Town Hall at Rs.15,000/- is provided.

Acquisition of Insanitary houses - A provision of Rs 20,000/- is made for the acquisition of Insanitary Houses in congested areas:-

Kadur Municipality.

Water Supply - Two alternative estimates one for Rs. 60,00 through gravitation and the other for Rs. 35,000 through ---- pumping have been received from the Sanitary Engineer and ar pending opinion of the Municipal Council.

Drainage:- On the basis adopted for Tarikere Municipality a sum of Rs. 50,000 including extension etc may be required --- roughly. No project is got up for this.

Town Extension. :- 100 houses may spring up if an extension opposite to Taluk Cutchery is formed. This will cost Rs.7,000 including compensation,

House building advances:- Rs.50,000/- at Rs.500/- per house is provided.

Other improvements:- Such as market and stalls, slaughter houses etc., may cost about Rs.5000. The old dilapidated West wall has to be dismantled and the trench filled up. This may cost about Rs.15,000/-.

Acquisition of Insanitary Houses.- A provision of -- Rs.15,000/- is made for the acquisition of Insanitary houses in congested areas.

[redacted] MUNICIPALITY. 14 MAY 1917

[redacted] Water Supply:- [redacted] scheme alone should be adopted if it is adopted to abut [redacted] in the valley where the Railway [redacted] would their well and pump out water by steam engine. In that case the cost of the scheme will be Rs.4453 x 10 48,530 Annual maintenance charges for pumping out scheme will be Rs.4,000/-. If gravitation scheme is to be adopted by taking water from Devakotte Tank in closed pipes the cost will be Rs.4,858 x 7 Rs.35,000 or 35,000 Annual maintenance charges for Gravitation scheme will be Rs.1,000/-.

Drainage.- On the basis already worked out for other Municipalities, Rs. 30,000 may be estimated for this item

New Extensions:- An extension just opposite to the Dispensary or on another suitable [redacted] may be formed to accommodate 50 houses. For this purpose 15 acres of land may be required and the formation of the extension will cost Rs. 15 X 500 7,500

Compensation for 15 houses at Rs 700 Rs.. 1,500

Total . . 9,000

House building advances:- Rs25,000 at Rs.500 per each house is provided..

Other Improvements.- Market and other improvements may require Rs.6,000/-.

Acquisition of Insanitary Houses.- A provision of Rs 10,000 is made for the acquisition of Insanitary Houses in congested areas.

14 MAY 1917

KUDLIGHI MUNICIPALITY.

Water Supply:- D.E.P water supply from wells is not feasible for want of sufficient springs in the locality. It must therefore be pumped from from the Halla close by. The existing wells fail in the hot season . The cost of a pumping scheme will be

Rs. 1,300 X 10 13,000 or Rs.15,000.

Annual maintenance Rs.4,000

Drainage:- Rs 12,000 is sufficient for the locality

New Extension:- There is necessity for an extension in this town. This may be formed opposite to D.P.W. and Forest buildings far off from the Mission House 50 houses may be built if an extension be formed.

5 acres of extension at Rs500	2500
Compensation at Rs.50	250
Total.....	2750

House building advances:- Rs 25,000 for 50 houses at Rs.500 each is provided.

Other improvements:- A market, slaughter house, stalls, and a cart stand may cost Rs.14,000

Acquisition of Insanitary Houses - A provision of Rs 10,000/ is made for the acquisition of Insanitary Houses in congested areas.

[redacted] Municipality.

[redacted]:- From Mutukore Tank both for upper and Lower Kopps by [redacted] cost Rs. 15,000/-

[redacted] .. Rs. 400.

Preliminary project has been approved by Government in their order No. 745 - 5 M.L.394 12-9 dated 24th July 1915. Estimates have to be prepared by the E.P.W.

[redacted]:- Rs. 15,000 is sufficient considering the nature of the locality.

[redacted]. If water supply is afforded, the place between upper and lower Kopps on both sides of the Road can be formed into an [redacted], providing for 50 houses. The land is thickly evergrown with [redacted] Government.

Cost of forming the Extension is Rs.	2,500.
Compensation.	250
	2,750.

The floating population of South Canara are eager to build up houses as soon as water supply is arranged. These will be ----- encouraged to settle down here

[redacted]. :- Rs. 25,000 has been provided for 50 houses at Rs. 500 each.

[redacted]:- Construction of Slaughter House, Mutton Stalls etc. is required. This may cost Rs. 5,000/-

---

Acquisition of Insanitary Houses - A provision of Rs 10,000/- is made for the acquisition of Insanitary Houses in congested areas

14 MAY 1917

MAHAGAMASEKARAPURA MUNICIPALITY.

Water Supply:- The cost of pumping scheme will be Rs. 1,855×10 =18,550 or 20,000. Annual maintenance will be Rs.4,000

Drainage:- Rs.12,000/- may be provided as the area is only .31 Sq.miles.

Town Extension.- 50 houses may be built. 10 acres of land will be required for extending part of forming the extension will be Rs, 10 X 500 = 5,000. Compensation for 10 acres=500.
Total... 5,500

House building:- Rs25,000 has been provided for 50 houses at Rs.500 each.

Other improvements:- For market stall and slaughter house etc ., Rs.5,000

Acquisition of Insanitary Houses:- A provision of Rs 10,000/- is made for the acquisition of Insanitary Houses in congested areas.

No. 4715-16 D 5-17

To

The Deputy Commissioner.

Kadur District.

Sir,

With reference to your letter No. T.635 dated the 17th February 1917 to the address of the Executive Engineer, Sanitary Division, expressing the desirability of undertaking detailed surveys of towns in the Kadur District in view to preparing comprehensive schemes for town-improvement, drainage, water supply &c., for each town, I have the honour to inform you that with the available establishment, surveys have been completed till now for the following places in the District -

(1) Tarikere - Complete in all respects

(2) Chickmagalur.- Drainage and water supply scheres prepared Town survey incomplete

(3) Koppa & Kadur -Water supply projects completed.

2. If, as desired, surveys are to be undertaken on a large scale for the rest of the towns, it is reported that preliminary schemes could possibly be got ready for all of them in a year, if an adequate establishment were to be employed

as

as detailed hereunder -

1 Sub Assistant Engineer - Pay Rs	200 + 50	allowance
3 Subordinates Pay Rs	50 + 20	allowance each
1 Draftsman Pay Rs	50	
1 Clerk Pay Rs	30	
	Rs 540	
3 Lascars Rs 8 each	24	
2 peons Rs 8 each	16	
Contingencies	20	
	Rs 600 a month.	

3. If you will be so good as to find a sum of Rs 7,200 required for the purpose and move the Government to sanction the establishment as now proposed, an endeavou will be made to furnish you with the preliminary schemes required in a year's time

4. A complete programme of improvement schemes desired may also be furnished to enable this office to determine whether all of them can be, worked out within the period of one year

I have, &c.,

For Chief Engineer of Mysore

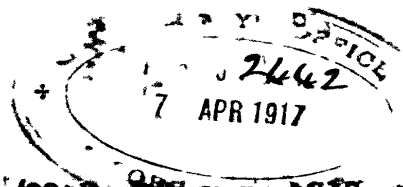
No. 4716 dated the 5-4 May 1917

Copy to the Superintending Engineer, Southern Circle, for information, with reference to his No.2601 dated the 3rd April 1917.

Deputy Chief Engineer of Mysore

45

BM



1149

Letter No 82 dated the 26th /28th February 1917, from the [illegible] Division to the Superintending Engineer, Southern Circle.

- - - - - - - -

In submitting herewith Kadur District Deputy Commissioner's No.835 dated 17/19th. instant in which he requests that preliminary schemes for Water Supply, Drainage and Town-planning of the Municipal Towns in his District may be got up, I have the honor to inform that the present staff are employed on getting up projects as per programme submitted with this office No. 526 dated 13-11-1916 and as such have their hands full To meet the wishes of Mr. L Krishna Rao, I want an additional establishment of one capable Sub Assistant Engineer and three capable Subordinates and one Qualified Draftsman for a period of one year

The only town that is correctly surveyed and contoured is Tarikere Chickmagalur town survey is incomplete and other towns are not yet surveyed With the exception of preliminary estimates for Drainage of Chickmagalur, Water Supply of Koppa, Kadur and Chickamagalur, all the other projects required by the Deputy Commissioner have to be got up afresh

Early orders are solicited sanctioning the extra establishment

-- -- -- --

No 2601 /Eb 96-17 dated Bangalore, 3 April 1917

Has the honor to submit copy of the above with copies of its enclosures to the Chief Engineer of Mysore, for favour of orders on the establishment applied for The cost when definitely ascertained is debitable to the Municipalities as agreed to by the President

Superintending Engineer,
Southern Circle

SECR
4 APR 1917

Letter No.To.635 dated 17/19th. February 1917, from the Offg: Deputy Commissioner, Kadur District, to the Executive Engineer, Sanitary Division, Bangalore.

to have plans and estimates [illegible] each [illegible] of [illegible] work [illegible] be prepared as a step preliminary [illegible] to the proposed [illegible] carrying with reference to the programme of Sanitary, drainage and Water Supply works called for by the Chief Engineer in his No [illegible] dated 15th February 1917 (now received with his memo No [illegible] of the same date), I have the honor to request you to depute a competent officer to survey and study the requirements of each Town in this District under each head as shewn in the enclosed statement and to prepare a preliminary estimate for each town so that the Municipal Councils may be able to discuss the ways and means and to go up to Government with a definite comprehensive scheme of town planning and other Municipal improvements. The detailed survey of the Towns may be undertaken by employing a number of trained Overseers and Sub Overseers for the purpose Provision can be made in the Municipal budgets if I know the cost of the Survey establishment

2 There is no comprehensive plan available Drainage or Water Supply schemes have from time to time been carried out in several towns of this District under the advice of successive Sanitary experts but they have all proved unsatisfactory patchworks It is moreover undesirable to carry out works of improvements in small instalments without a well-devised scheme for each town prepared after a thorough study of local conditions and requirements

3 I want such a plan to be carefully prepared as early as practicable Every town in this District wants a plan of extension with its drainage and water supply schemes Each should fit in with the other and made to give a comprehensive idea of the scope and cost of the undertaking

C.M.K.

H-Rudrappa

Offg. Deputy Commissioner,

Kadur District.

Statement showing the amount which each Municipality in the Kadur District allots for Water Supply and Drainage Scheme towards Capital and maintenance charges for 1918-1919.

Name of Municipality.	Particulars of Improvements.	Amount.	REMARKS.
Chikmagalur.	Water Supply Drainage.		The President Municipal Council reports that Estimates for Drainage Project of the Town received from the Sanitary Engineer has been returned to him duly counter-signed , that no estimates have been prepared for water supply project and that under such circumstances he is quite unable to allot any amount for these projects. He further states that such amount as is required for the above purposes may be allotted out of the amount of Rs. 40,000/- kindly sanctioned by His Highness the Maharaja for effecting these improvements.
Tarikere.	Water Supply Drainage.	10,000.	The Municipality is agreeable to pay Rs 10,000/- from the surplus amount for the year towards the Scheme of the Drainage and Water Supply to the town.
K o p p a.	Water Supply.	10, 000.	The Municipality is prepared to pay a sum of Rs.2,000/- in addition to the amount of Rs. 8,000/- already sanctioned by the Government in the Budget for the said Municipality.

The Town is supplied with drinking water through pipes from a reservoir built by the Municipality. The water is not filtered and a separate project to enhance the supply by Construction of a masonry conduit and their supply the Town from a reservoir close to the Town is under Consideration and the matter is before Government for Sanction. The town has tolerably good drainage and the Council are spending sufficient amount to extend the present drainage and lay out new channels there every year. No separate elaborate drainage is necessary

There are drinking wells in Camping ground Gaurbhave Slaughter house, New Town, Kolar Road & X-Ray Treasury & B. Compound and addl and Kolagar house one Acre has been reserved for the purpose

L 500 – 500 – 00

Re-Private Supply Scheme

The Govt has been ordered to leave for the present – as the maintenance charges are very high and the Municipal Council are not anxious to take up the Scheme Please vide Government order No R 5833 – 4 Jul 10-18-2 dated 11 11 1918)

2 An annual allotment of Rs 500/- is being made for the Construction and repairs of drains

3. The President's letter on the Subject shows that the Municipality is neither anxious for the drainage Scheme

Water project is urgently needed. The Municipal Council have resolved at a meeting held on 31st July 1918 that they could invest Rs 2000 as an experiment of Rs [illegible] the estimated cost of the project under Contemplation and the matter is before Government Copy of the resolution of the Municipal Council is submitted with the letter (Please vide Deputy Commr's letter No 1962 dated 11 –

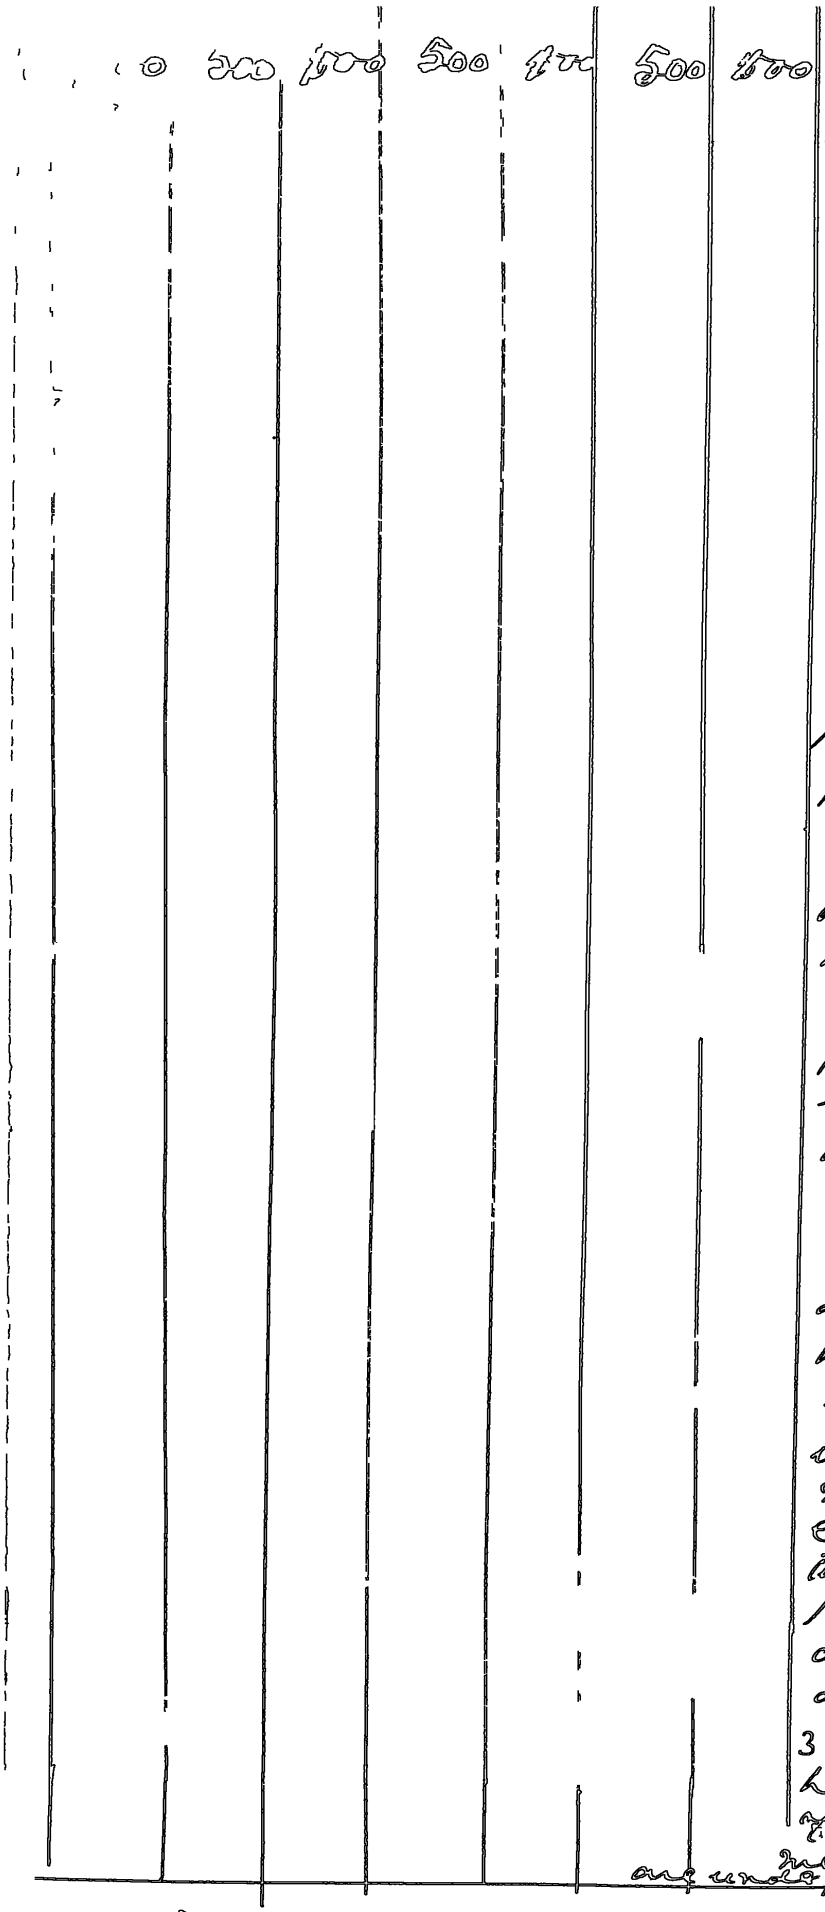
Signed Rachel Greenfield

Signed Mrs Salmons Field in Shelwick Green

Some of ward so much fell in the Town

Thirty one



The water supply scheme for the Town was estimated at Rs 53 100/-; the maintenance charges being Rs 4300/- Government have passed the following order in the matter.

1) The maintenance charges of the proposed scheme are too high to be met by the Municipal Council with their present income. The proposal to replenish the water supply to Jayangonda from the Nagavala Tank through a channel and also replacing all of the Tank Sluice and the bed of Jayangonda are reported to be carried at the same level.

2. In these circumstances the Municipal Council should improve the water supply by sinking more wells and deepening existing wells and providing them with pumps where ever possible (Memorandum Govt. order No 4993-4 Mis 4/10-13-4 dated 30-9-1918

3 The Municipal Council have forbidden the excavation of the wells as are unsuitable for drinking purposes

No. 1045/C(547-18) 1875

From

The Superintendingineer,
Sorn Circle.

To

The Secretary to Government,
Revenue Department,
Bangalore.

Sir,

In continuation of D.O. letter No.183 dated 30th September 1918, I have the honour to forward herewith a few notes on Water Supply to certain towns in Kolar District received from the Executive Engineer, Sanitary Division. No notes have yet been received on drainage.

I have the honour to be,
Sir,
Your most obedient servant,

Superintending Engineer,
Southern Circle.

Sanitary Division Mysore P.W.D

Notes on water supply to certain -- towns in Kolar District

BOWRINGLET

An estimate amounting to Rs 69,140/- has been submitted with this office No - 531 dated 2-11-1917 for a pumping scheme from Bowringpet Dodkere tank to a reservoir on the ridge to the north of the -- town and distribution therefrom to town through cast iron pipes and fountains The storage in Dodkere tank will be supplemented from three small tanks above - which will be reserved for the purpose

MALUR

A Pumping scheme from Malur Dodkere tank amounting to Rs 53,100/- was not -- taken up, the capital and maintenance - cost being found too high for the Municipality to bear

The people represented that the -- Gajagondlu pond in the town may be filled from the Madivala tank by means of a -- conduit Levels did not allow of this being done It has therefore been recommended to the Municipality that only -- course left to them is to improve existing wells, such as the Dodkere well, -- Kumbarkere well &c

CHICKABALLAPUR

A pumping scheme amounting to --- Rs 53,545/- was approved by Government

in their order No.8397/9 Ml.126-16-4 -- dated 29-6-1917 and detailed estimates were called for. The source of supply recommended were wells to be excavated in the bed of the Gopalakrishna tank bed Two alternative estimates were submitted for ₹ 1,39,380/- and ₹ 1,95,500/-. The - source for the smaller estimate was wells in the bed of the tank and for the latter an infiltration gallery below the tank - bund Government in returning these esti estimates directed that a single source should be fixed and one estimate may be framed and recommended

Trial bores were put down in the bed and a point selected for excavation of - a trial well for testing the quality and quantity of water available Materials are being collected for the well An -- ad-interim report was submitted with this office No 587 dated 18-9-1918, in which the financial aspect of the question has been discussed, viz , that even taking - the source nearest to the town, the estimate would cost nearly ₹ 1,75,000/-, out of which the Municipality can bear only ₹ 40,000/- and the balance of 1,35,000/- will have to be met by Government

CHINTAMANI

The town is now supplied by gravity from Kannampalli tank 2 miles to the -- South-west of the town direct without --

without any filtration An estimate for providing sand filters and also improve - the delivery main which is sunk and ---- choked up in places has been submitted -- for Rs 50,000/- by this Division Another estimate amounting to about Rs 8,000/- has also been sent up by the Kolar Division for increasing the catchment area by 0.5 Sqr. miles Orders thereon are --- awaited

Municipal
Deputy Commissioner
Kadur District

Office of the Deputy Commissioner
Mysore District
Mysore, dated 18th March 1919
75

T. Chokkanna, Esquire, B A,
Deputy Commissioner, Mysore District

Ramaswamaiya, Esquire, B A B L.
Secretary to the Government of H.H. the
Maharaja of Mysore, Revenue Department
Bangalore

With reference to correspondence ending with your D O
er No. 11229 Ml. dated 4th March 1919 re the submission of statement
ng the particulars of water supply and drainage schemes as called
in your letter No 6900-6Ml. dated 8th June 1918, I have the honor to
se a statement embodying all the required particulars
The water supply projects relating to Malavally, Saligram, Hunsur
rajanagar and Seringapatam Municipalities have been already under
espondence for some time past. It has been reported in this office
ter No C.0246/73 L B /18-19 dated 31 8 19 that the water supply scheme
Malavally Municipality will have to be lie over as the council cannot
nce the scheme Government have been pleased to accord their adminis-
tive sanction to the water supply project of Saligram town costing -
18000 and the question of finding funds has to be considered by the
il after it is reconstituted. A project for Rs 30000 had been pre-
ed for water supply to Hunsur town and Government ordered that the --
ject cannot be sanctioned till the council were able to contibute
towards the cost As regards the water supply scheme to Chamaraja-
town reference is invited to this office letter No C2 Bio 453/73 L B /
19 dated 29.1.1919 stating that the Municipality is able to bear neither the
tial cost nor the annual maintenance charges As regards Seringapa-
town the Government have already ordered that the cost of water sup-
estimated at Rs 75000 should be met from State Funds The project --

is under preparation in the Public Works Department.

The question of improving the drainage of Nanjangud town has been under correspondence and it has been included in the programme of general improvements to the town. The Committee's proposals in the matter are pending orders of Government. The Chief Engineer has sent a rough project for Rs. 113157 for providing a better system of drainage to Chamarajanagar town. The matter has been referred to the council for considering how far they can finance the scheme. The improvement of drainage of Seringapatam Town is one of the anti-malarial measures proposed by the Sanitary Commissioner in his report on the results of the malarial survey of the place. The council is not in a position to provide funds for the same
